LANDING AI

CTO

Enrique
Páez

CIBC
Yum! Brands

VP of Sales

A **gap** in the market

Worth \$5.6B - Connectors for
top 160 SaaS providers

Nobody has solved this for the
long-tail

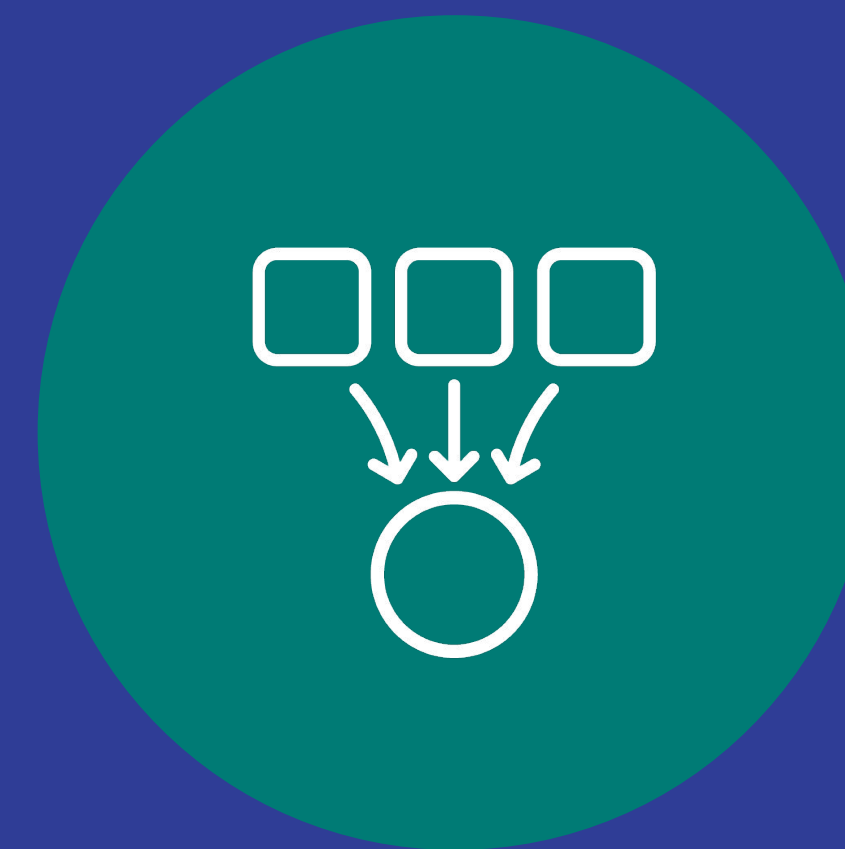

Outdated **batch-based**
model

We provide no-code real-time **data connectors** for **specific industries**

Real-time data
which can be moved
to any destination

**Vertical specific
connectors**
unavailable in the
market

No technical
background necessary

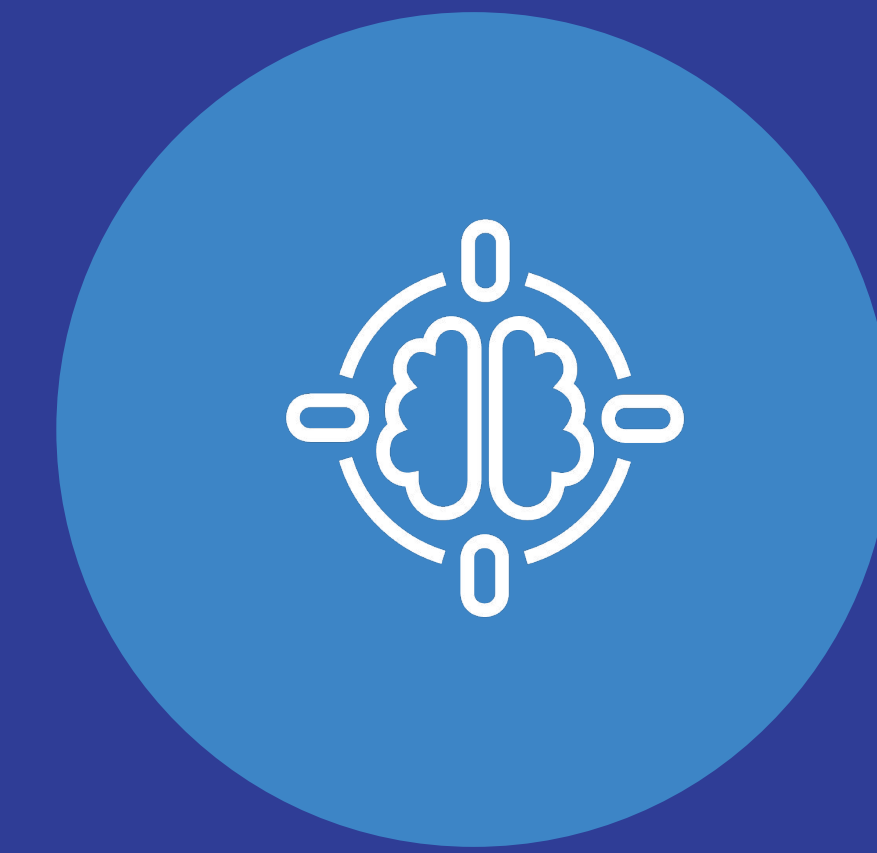

With Key Insights on making businesses data driven

Huge industries
remain unattended in
the connector space

Operational companies
have no margins for
technology
development

Real-time data is
becoming the norm

With a tried and tested business model

Subscription based billing

15 day **free trial pilot**

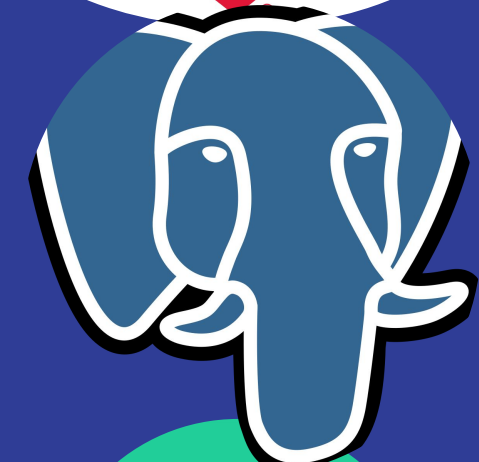

Charge per # of events

Switching **cost moat**

A sizeable known TAM growing really fast

US\$2B

1000 customers * 100 connectors * \$20,000/year

With already promising results

First customers in production
within 3 months

Why invest with us?

Highly qualified team with top-level experience and Y Combinator backing

Highly scalable business

State-of-the-art technology

Cash flow quality

Market on fire: CAGR 30%

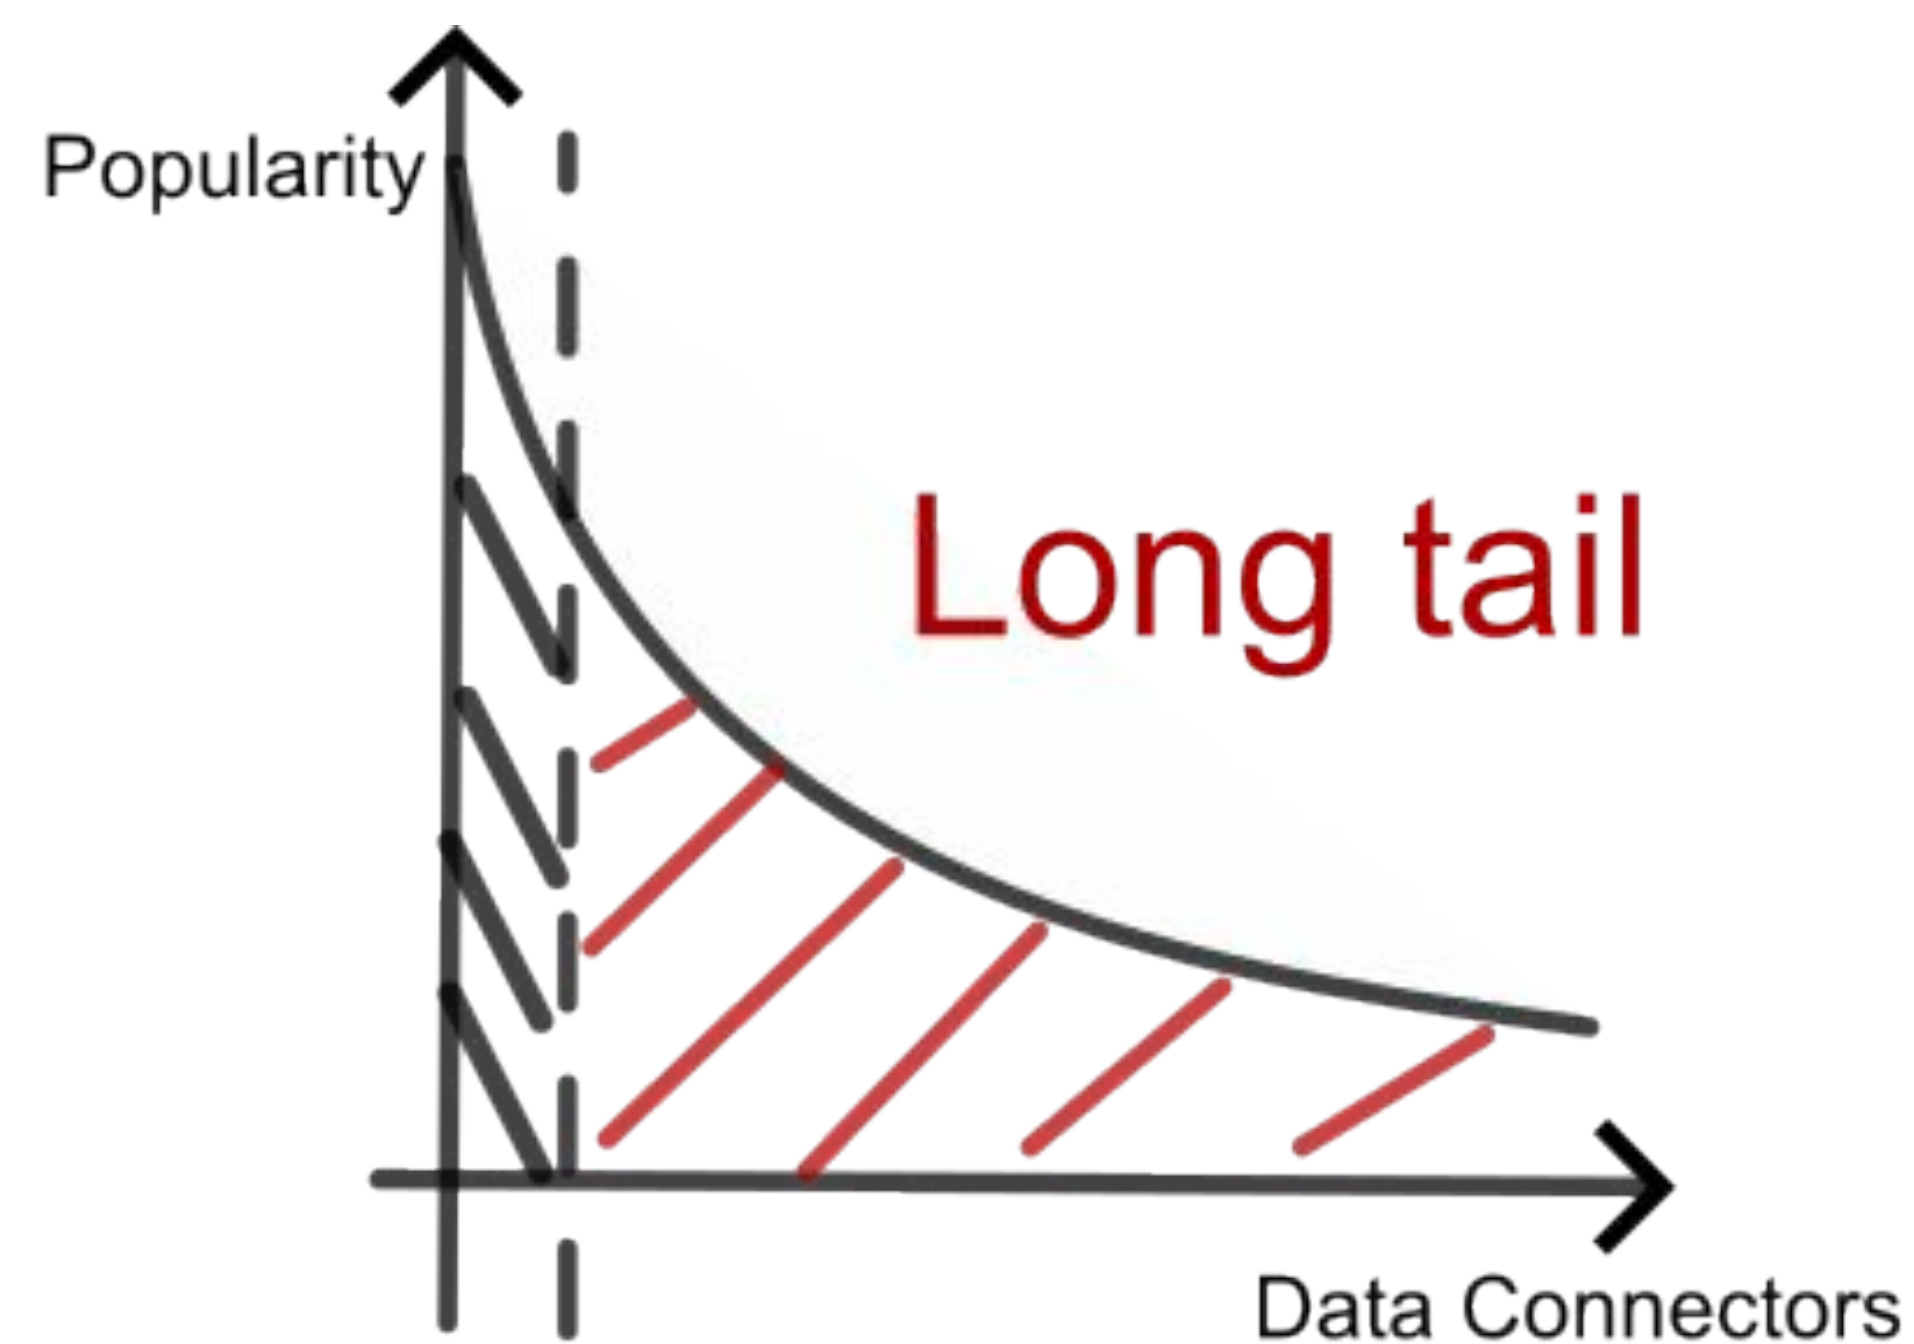

Very promising outlook

Appendix

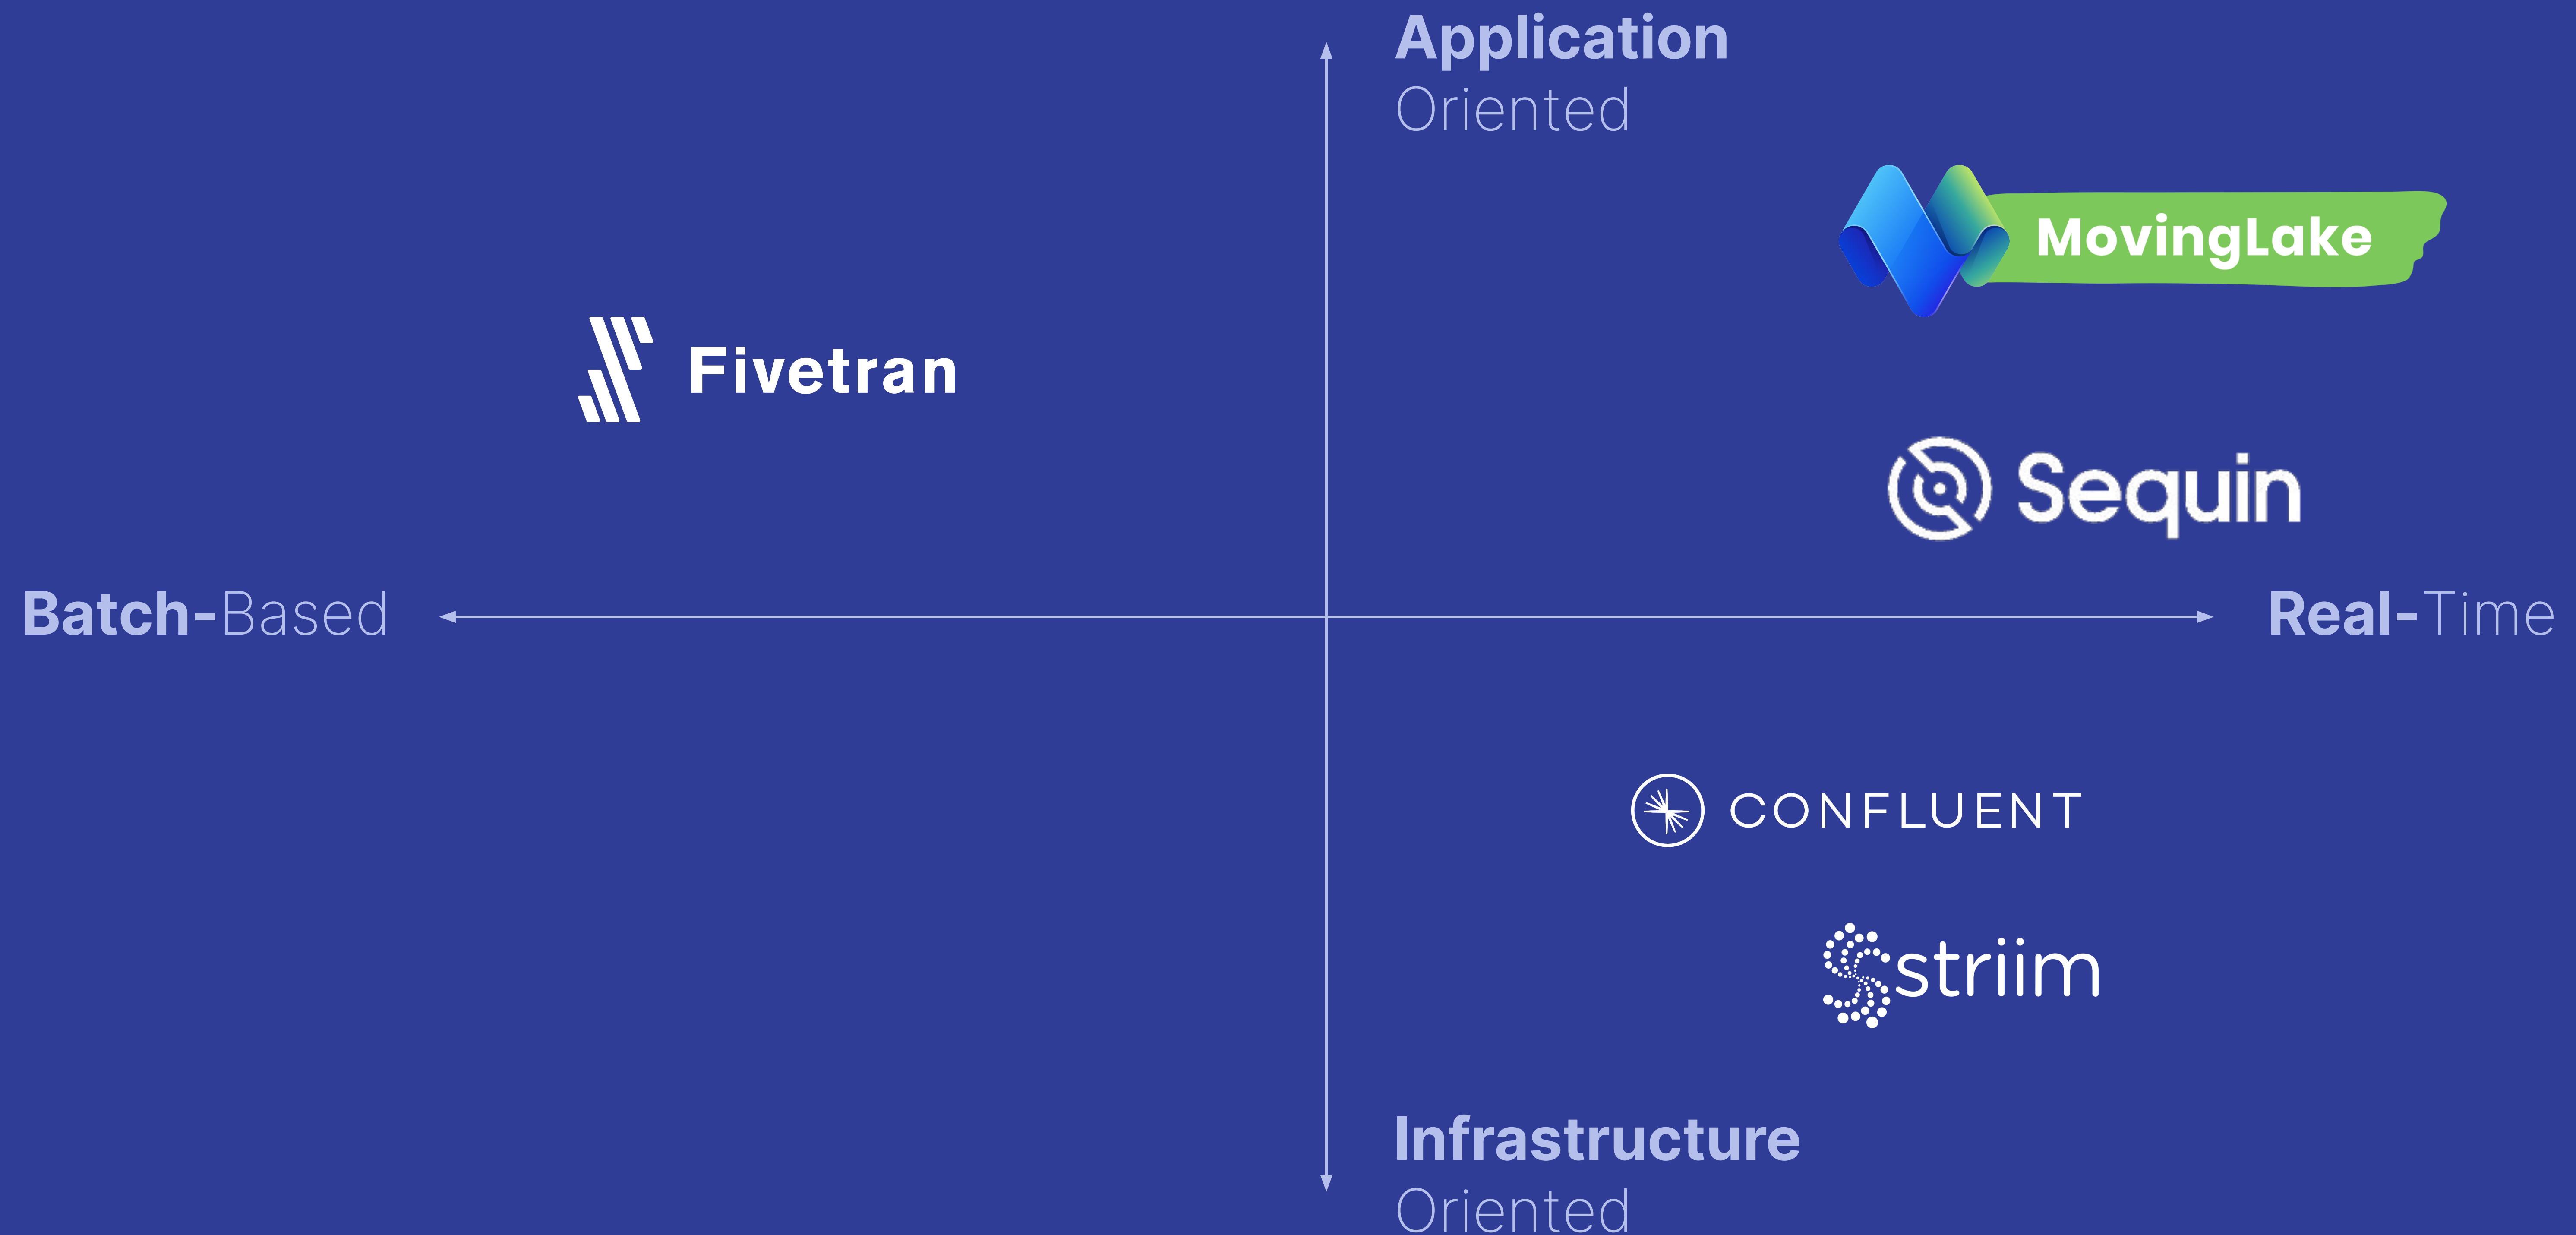

What is really the long-tail

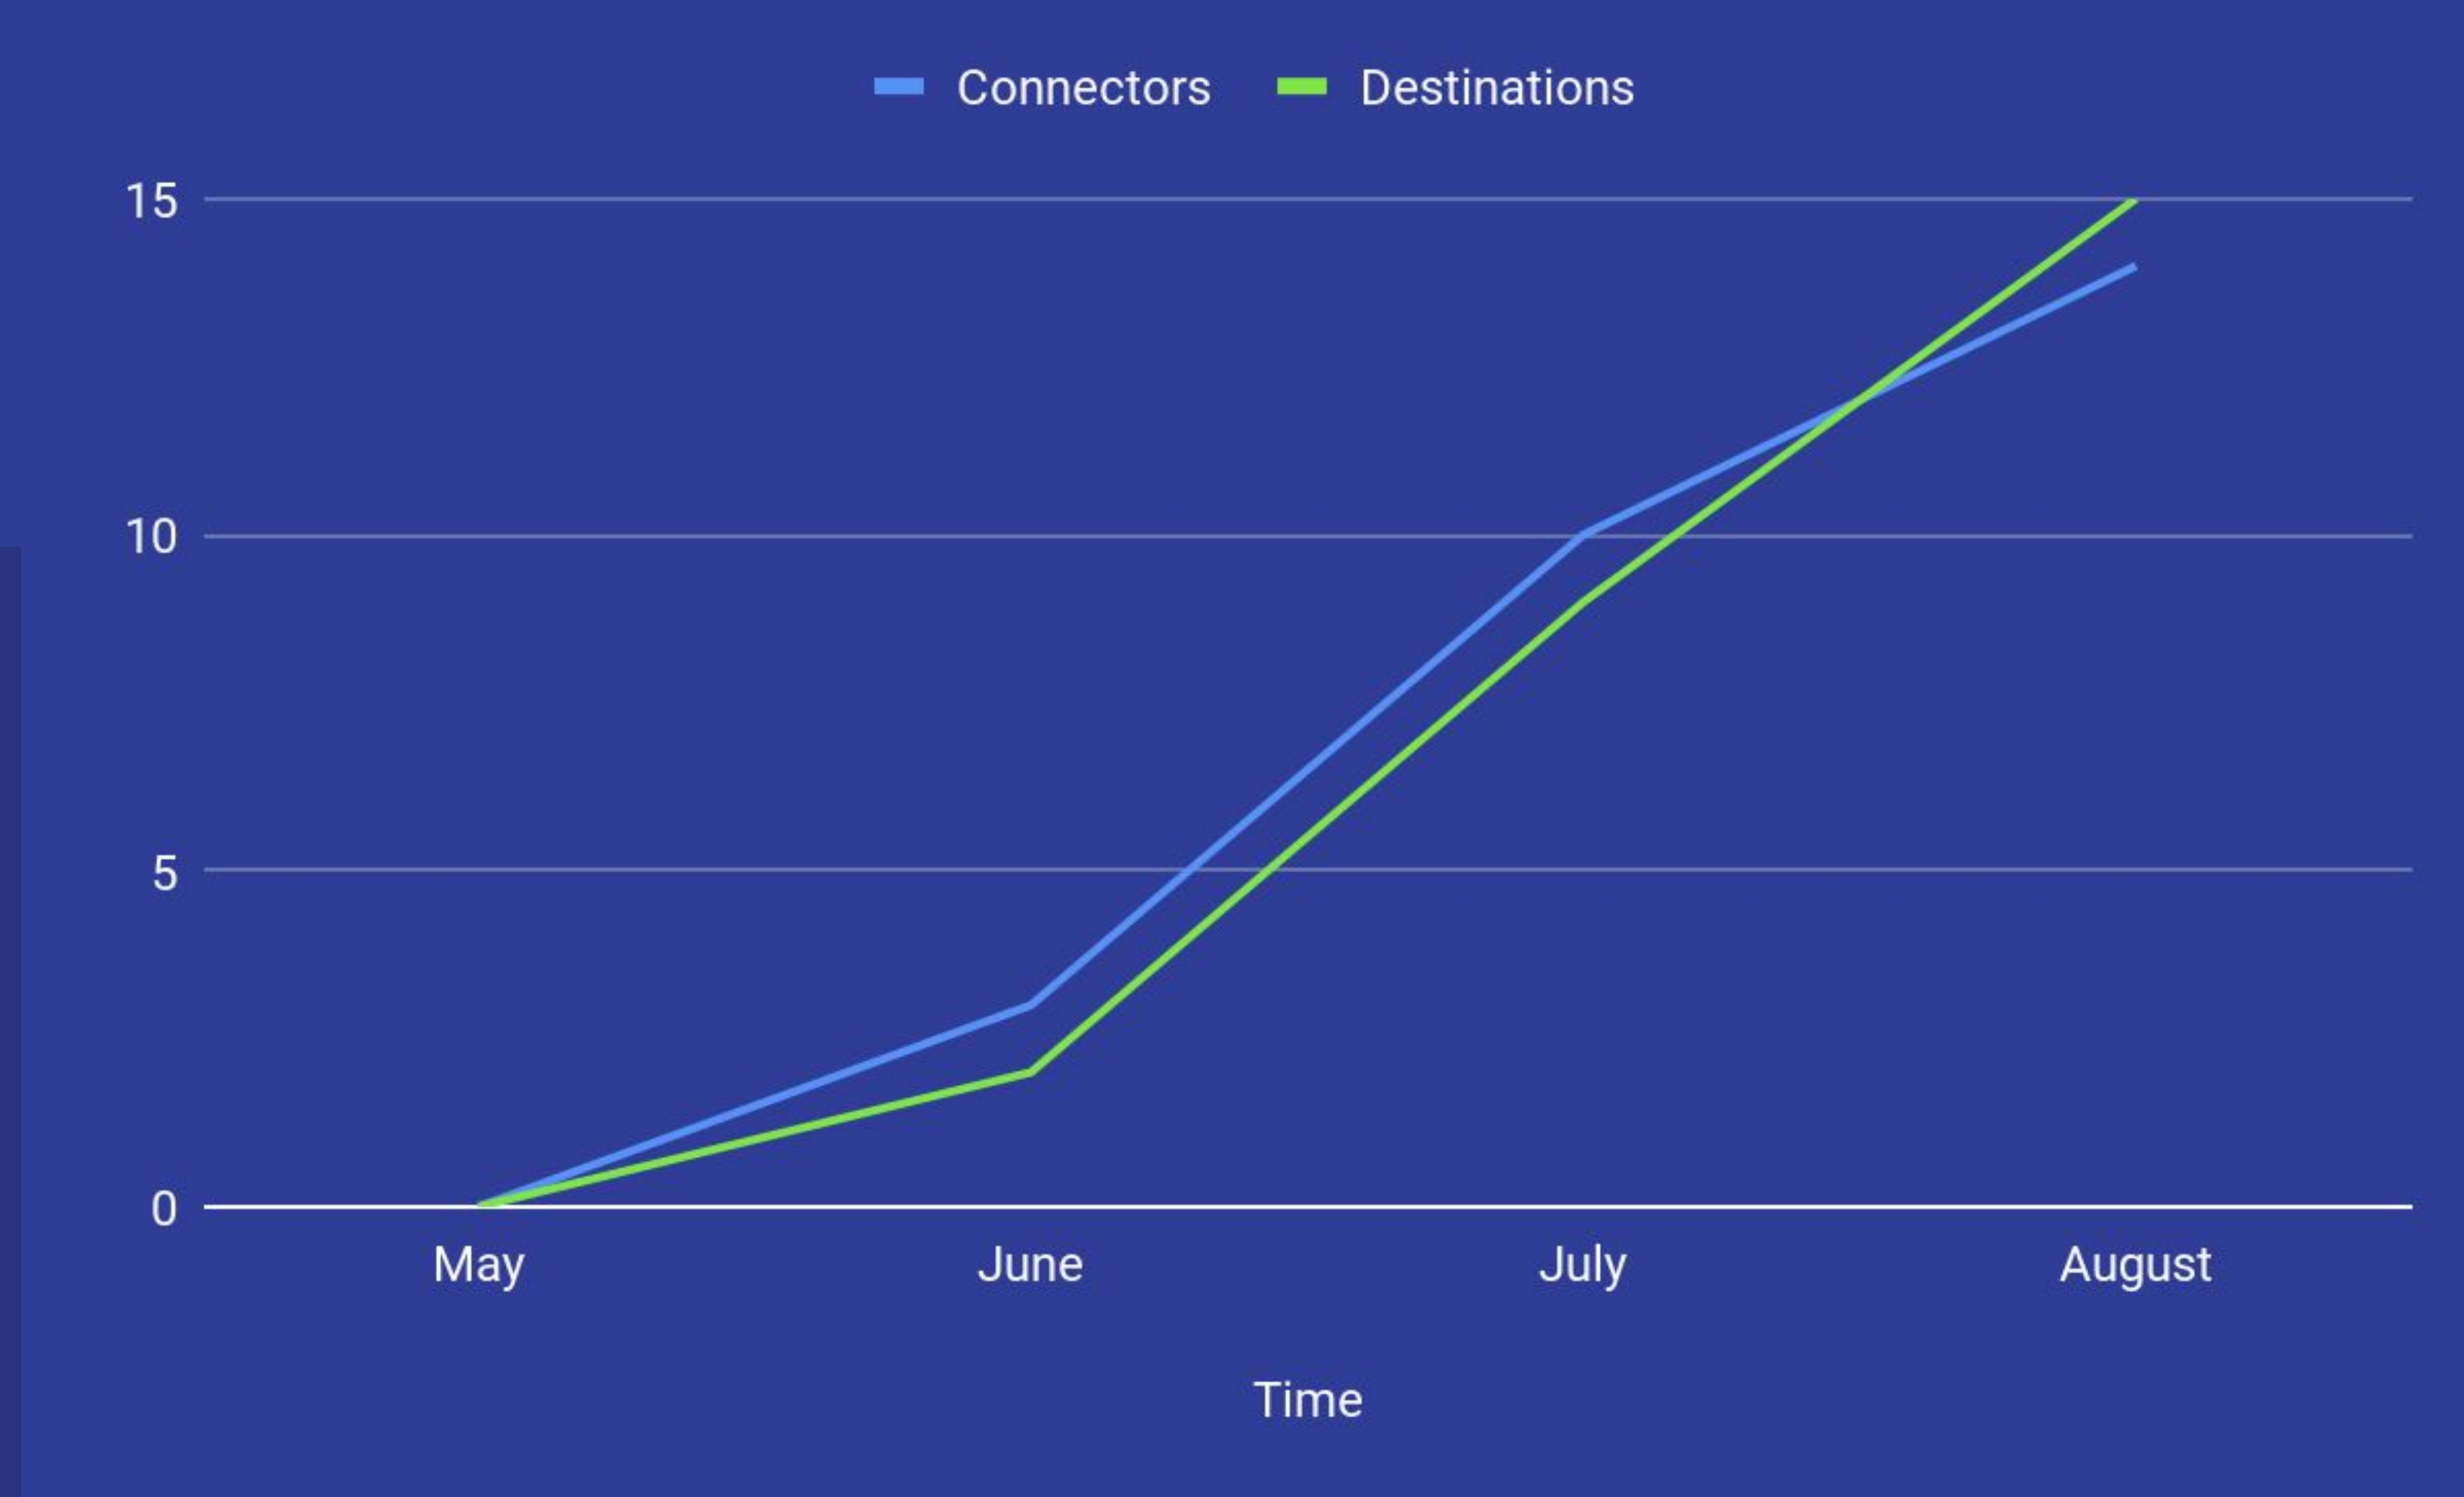

Long tail is an oversimplification - The reality is more fractal.

A bit on the connector **Competitive Landscape**

A rapidly improving product

10 new connectors and destinations each month
